TO	Chief, [REDACTED] 25X1A2g 25X1A9a		X MARKED FOR INDEXING
INFO.	25X1A2g [REDACTED] (Attn: [REDACTED])		NO INDEXING REQUIRED
FROM	25X1A2g [REDACTED]		ONLY QUALIFIED DESK CAN JUDGE INDEXING
SUBJECT	[REDACTED] 25X1A2g		MICROFILM
ACTION REQUIRED - REFERENCES			
<p>Review of material received 25X1A2g</p> <p>1. I am reviewing [REDACTED] incoming mail again to take account of the departure last week of [REDACTED] 25X1A9a who is not being replaced. This office no longer requires two copies of the EIC Biweekly Report on Aid & Trade Activities of Communist Countries etc. Similarly, we now only need one copy of most other ORR publications, including CSEs, EMs, and geographic studies. From time to time we will need several copies of certain reports, but it seems more economical to let us ask for them when the need arises. I screen all finished material for potential consumers in the local US intelligence community, but most reports are of interest to only a limited number of people here.</p> <p>2. We do a brisk business in maps, particularly the National Geographic and ORR productions. I want to maintain our standing order for small maps, and maps of area interest. (I believe this is an across-the-board order for everything in the FE area). Additional maps are requested as follows:</p> <p>a) National Geographic <u>Southeast Asia</u> - 6 copies (a best seller)</p> <p>b) National Geographic <u>Africa</u> - 4 copies</p> <p>c) National Geographic -FE area.</p> <p>We do not have a list of the available maps, but the station needs some of the standard National Geographic maps of the area, particularly some up-to-date editions of maps showing parts of or all of Communist China. Many of the most common maps in use here now are ten to 15 years old. Please send us a list of National Geographic maps and/or a selection of several different maps showing large sections of the Far East area. Two copies of each selection would be adequate for a starter.</p> <p>Distribution:</p> <p>2 - [REDACTED] 25X1A2g</p> <p>1 - [REDACTED]</p> <p>1 - FE</p> <p>1 - OCR</p>
